Radiography In A Flash

Synopsis

Convenient and functional, Radiography in a Flash 2.0 offers the quickest and easiest way to prepare for the American Registry of Radiologic Technologists (ARRT) certification examination. Containing over 1,750 questions, these portable flash cards are divided into the five core content areas of the exam: Radiation Protection, Equipment Operation and Quality Control, Image Production and Evaluation, Radiographic Procedures and Patient Care and Education. Color-coded for easy identification, the cards are further divided into sub-sections so individuals can focus more attention on topics that need strengthening. Corresponding answers are printed on the back of each card. All of the questions are practical and relevant to the latest standards of practice. This is simply the best resource for studying on the go!

Book Information

Cards: 370 pages

Customer Reviews

Sharon is a Clinical Coordinator and Instructor in the Radiology Program at Angelina College located in Lufkin, TX. Cynthia Griffith, B.S., M.Ed. is an instructor in the Radiography Program at Angelina College located in Lufkin, TX. Judy Wells, B.S., M.Ed. is an Instructor in the Radiology Program at Angelina College located in Lufkin, TX. Angie Wilcox, B.S., M.Ed. is a Clinical Instructor in the Radiology Program at Angelina College located in Lufkin, TX.

These are worth getting for studying for the exam. Not everything in there is relevant to the current

exam, but it's a fun and easy way to study the content. I used these every semester and just pull out the content we are learning. I love that they cover content of every area of the exam, I just wish there were more for things like biliary and GI/GU

The flash cards was perfect for my child's studies in radiology

I took the ARRT board after reviewing with these cards and scored a 92. That was my school average too but I think the cards helped a lot.

This is the finest tool for registry review. So simple to put a handful of cards in your pocket for easy study at work or clinicals. So glad I got them!

It's what I asked for and so much cheaper than what the book store at Angelina was selling them for. I think I saved \$60-70.

I purchased this at the beginning of my radiography program. I'm getting ready to graduate in 7 months and have been using them for tests in positioning as well as patient care. These cards have multiple questions on one card and are color-coded for each section covered by the ARRT registry. I also recommend Lange Q&A by D.A. Saia for registry review. Lange Q&A - Radiography Examination (Lange Q&A Series (formerly Appleton and Lange's Review Series))

Great product! Prompt service. Cards are perfect size to carry around. Gives me opportunity to review daily.

I received my order very quickly. Product was just what I was looking for and met all of my expectations.
