# Chemistry (The 100+ Series™)

## Synopsis

Chemistry for grades 9 to 12 is designed to aid in the review and practice of chemistry topics. Chemistry covers topics such as metrics and measurements, matter, atomic structure, bonds, compounds, chemical equations, molarity, and acids and bases. The book includes realistic diagrams and engaging activities to support practice in all areas of chemistry. The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series will be aligned to current science standards.

## Customer Reviews

Satisfactory.

A great resource for Chemistry teachers!!

I should have read the description better. This book is useless.

I use several of these worksheets. I really appreciate the "lesson note" at the top of most worksheets, providing a quick reminder. I pick and choose between the worksheets, using ~35 pages.
