Customer Reviews

great for nursing school. reasonable prices.

Book has some highlighter marks, but still perfectly readable. The book itself contains a lot of leadership and nclex info that some students may find helpful.

It's a textbook, it serves its purpose and I despise it. Mandatory reading is awful, reading for pleasure is where happiness occurs.

The most pointless book I have ever attempted to read. Hundreds of pages of common knowledge BS. Waste of time and money.

Great item - better quality than picture, very pleased.

my son is going to nursing school & was very glad to receive it.

The book is loaded with information. It was a course requirement for nursing school and as it turned out, I didn't crack it once. I am keeping it for future reference. Shipping was fast and book came in excellent condition.

Just a waste of time and money for my nursing class. Will say there is some good information, but read maybe one or two chapters.
