The Bible In A Nutshell

Synopsis

Quite possibly the most blasphemous and simplified version of the bible ever written. I've shrunk this tale down to a fraction of its most popular incarnations. I've attempted to challenge the notion of biblical literalism by showing that the story in its most basic form is simply too ridiculous for any rational person to believe as factual truth. This is a work of fiction just as the bible is. Treat it as such, and enjoy.

Customer Reviews

This is truly a rendering of the bible in a nutshell. A hilarious nutshell at that. This is a wonderful little primer for anyone unfamiliar with the bible and might find the undertaking of reading it daunting. For those of us who have already took that grueling journey, we are sure to get a few chuckles out of this fast-forwarded adventure. At times, I thought, "why didn't the author talk about this or that?" However, the bible is already a long, dry, humorless tome. So to keep things short & sweet, many

things had to be omitted. This is still a very funny & insightful few minutes in any waiting room or local transit or wherever you need to pass a few minutes with a few laughs.

This book made me laugh out loud several times. It is very compact (32 pages), so it was a quick read. I think it should be read by anyone that wants to know what the bible is about.

I enjoyed this book; but was concerned when I got to the Alternate Ending 2. This is when Mr. Rigsby was writing about Seventh Day Adventists and their Darwinian objections in "The Watchtower" magazine." Actually, "The Watchtower" magazine is published by the Jehovah's Witnesses. Sorry about that Mr. Rigsby. Perhaps you can edit this section for greater accuracy. Still, I liked the book but couldn't give it a 5 star rating for this very glaring error which tends to throw a pall of doubt over the accuracy of the whole book (even if it were meant to be "humorous"). Larry

This was absolutely one of my favorite tales of the bible I have read to date. When you want a humorous telling of the most often recalled biblical stories, this book is the book to read. It's also perfect for while waiting at the doctor for an appointment as reading it only takes a few minutes.

This nutshell wrap up of the most absurd of the biblical stories is really funny and entertaining, yet sad at the same time because so many people actually believe them. I too have tried to strip down some of the stories to show the ridiculousness of them, writing in my notebook, but Casper Rigsby does a way better job at it than I did. I'll be looking for more entertainment on his blog and Facebook page!

I gave its book 5 stars for "not beating around the bush", and telling it like it is! It is so hard to believe that millions of educated people on this earth are so brain-washed and live by the Bible. It's as if they belong to a cult.

I thoroughly enjoyed this book for its humor and pointing out just how violent and destructive religion is. No wonder instead of peace and living harmoniously with nature and all man kind, hatred, and mass murders of different religions, races and sexes exist. Reading the bible and learning about god's ways has set an example for those who believe in him to follow. Now I see why the believers always seemed so evil. They are being lead by example. Based on the bible and the way god handles people no wonder religious people feel it is ok to rape , kill, steal and get rid of anybody

who don't believe.

This is a book that cuts through all of the archaic BS and hard to understand antique writings. This is my nightstand reading material. For the atheist and theist alike, this is a must have for your knowledge base.
