Florida Butterflies & Moths: A Folding Pocket Guide To Familiar Species (A Pocket Naturalist Guide)

Synopsis

Florida's state butterfly – the exotic and unmistakable zebra long wing – is one of over 1,320 species of butterflies and moths found in this region. This beautifully illustrated guide highlights over 70 familiar and unique species and includes information on their life cycle and features illustrations of common caterpillars and pupae. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike. Made in the USA.

Customer Reviews

â œWaterford Press offers . . . different titles such as Backyard Birds and Birds of Prey . . . although these contain only simple listings of the most common types in your area, itâ™s amazing how many species they pack into these inexpensive heavy duty cards. An added benefit is that they can be folded to create a book-like spine for easy display.â • -- Birding Business, Trends in Booksâ œThere are dozens of these stunningly illustrated pocket guides to nature. They easily fit in a shirt pocket with space left for note paper and pen. While you wonâ™t want to discard your bulky bird, flower, tree, etc. books, these are ideal casual identification guides. In addition to the illustrations, there is enough descriptive material on each species to key in on and then follow- up

when it is convenient to scour the books for greater details and confirmation. If we ran a store that catered to outdoor enthusiasts, weâ™d sure have some of these in the rack.â•-- Shep, BookshelfâœNature lovers may want to look into an expanding series of pocket guides from Waterford Press. The Pocket naturalist series has something for everyoneâ™s backyard. The laminated foldouts feature p to 150 items per guide on topics such as urban wildlife, backyard, birds, pond life, the night sky, and wildflowers. There are also regional, state and city guides for even more specific information. Each water-and-dirt-resistant guide sells for \$5.95.â•-- Garden Ideas and Outdoor Living

Waterford Press produces reference guides that introduce novices to travel, languages, science and nature. Product information and hundreds of free educational games are featured on the website; www.waterfordpress.com""

This a wonderful guide to all the butterflies and moths in Florida. The colors are spot on and grouped according to color. This a gem, helps me identify the butterflies without a ton of work.

I know my butterflies, but honestly to have this at my finger tips just impresses all my friends and I've probably help sell many more copies. Great tool in identification of these beautiful creatures. Every butterfly garden should have one posted!

Quite a catch to have while in the garden and it wont even get too messy. If it does its easily cleaned. It isn't exhaustive but then again if I wanted to have all the butterflies I would buy a book. Perfect quick reference.

vey good

Good, basic reference. All wildlife fans need this one.

Great quick reference guide for identifying backyard visitors. Beautiful pictures, separated by family of butterfly (sulfurs, etc). My 5 year old loves looking at all the pictures ALL THE TIME I haven't had much of a chance to read it in detail yet!

Internet is FAR superior. This brochure is not worth getting.
