Art, Skateboarding & Life

Synopsis

Art, Skateboarding & Life is an action packed story that is related in a series of awesome visuals. In his first monograph, Andy Howell's work on the deck and as an artist is presented within the context of an expansive network of artists, skaters and agitators all bent on having an impact.

Chronologically arranged chapters are driven by an intense mixture of interviews, narrative text and non-stop full bleed visuals that trace Howell's journey through pro skateboarding, the action sports industry and allied segments of the DIY movements within art, music and design. Contributors include Tony Hawk, Shepard Fairey, Patricia Arquette, Dallas Austin, Ed Templeton, David Choe and Kenton Parker. The 2 DVDs feature interviews with artists and skaters, skate videos and music by Alysha Owerka-Moore, Monkey Wrench, Mass Prophets, The Blowing Rock Triplets and so much more!! --This text refers to an out of print or unavailable edition of this title.

Customer Reviews

Love all of the 90's New Deal art work.

I use to skate in the early 90's. New Deal was my most favorite. Bought this as gift for my neice.

Raw art striaght from the sk8 life. This is a collection of what many skateboarders [who are actually artists] think about. Well worth exploring. Nicely wrapped.

this book will take you hours and hours to get through. between the texts from Howell and guests

such as dave kinsey, tony hawk and shepard fairey and the thousands of images there's just an amazing amount of skate culture crammed into one book.

One of the most creative individuals in Skateboarding. This book is a MUST HAVE for anybody who have ridden a skateboard. And there are 2 dvds as well, with classics from New Deal. (The only thing missing is the music) Thanx Andy! Æyvind K. Svendsen Norway

This guy started out pretty cool, but then proceeded to market a cool culture that he was a part of to corporations so they could exploit kids with heart, exploit our skate culture, in turn he could make some dough. the definition of a sellout.
