This is perfect for my twin 2.5 year olds & 4 year d to play together. They have the best time & it's so funny to watch Â Â^Â†

I bought two of these for my Dinosaur Party, and they worked perfectly. They transferred nicely, the colors looked good, and I thought the dinosaurs themselves looked quite nice. I mean, I'm no paleontologist, but your average person won't complain about the accuracy of these tattoos. If you just want to enjoy some sweet dinos on your arm, these are just what you need.

I bought these for a little Burmese boy who's only been in our country a short time. He loves dinosaurs and these amaze him. He chooses which one he wants, we put it where he wants it and hold a wet papertowel on it for 30 seconds. I count the time out loud to add to the drama. I lift off the

paper and there it is. They all transfer perfectly and stay on for a long time. The colors are bright and he is thrilled. We put them all over him. He has them on his arms, his legs, his face and his little belly. I couldn't have found anything else at this price that would make him so happy. Glad I bought them.

These are cool looking but parts of the tattoo stick to the plastic cover no matter how slowly and carefully you peel it apart. You will inevitably end up with missing tails, mouths, and spikes. Luckily my two year old doesn't care but I wouldn't buy these again, especially seeing other reviews stating the same.

Dinosaurs are cool. Tattoos are cool. These are high quality press on dinosaur tattoos, how cool is that? I'll tell you: Double cool.

These were a huge hit. I got them to put in the treat bags for the kid's at my son's birthday parties and the kid's loved them.

got these for a family birthday- multigenerational in which we all put on tattoos. have to say the grownups and older codgers seemed to enjoy it as much as the kids. dinosaurs are well formed, well colored. wish they had same attention to detail in frogs and other animals- id buy them all.

12 colorful tattoos. Good directions. The boys love them. Be patient when applying, I was in a hurry & part of the long neck didn't stick to me so I had a giant body with a tiny, detached, floating head. Other tattoos applied carefully have been fine. One is still on my son after 6-7 baths, pretty faded.
