Customer Reviews

"[This book is] arranged in a very useful manner and has great information for people of all experience levels. I'm hoping it becomes a staple for all teaching hospitals." (Dr. Dave McRuer, Director of Veterinary Services, Wildlife Center of Virginia)

David Scott is Staff Veterinarian at the Carolina Raptor Center. He received his BS Electrical Engineering from the University of Illinois in 1988 and DVM from the University of Illinois in 1997, and has worked with many wildlife rehabilitation groups since then. He is also a software engineer and has developed the RaptorMed medical records software specifically designed for the medical

management and husbandry of all types of animals. It is used at rehabilitation centers, in aquariums, and for permanent collections all over the world.

Purchased as a gift to my cooperating vet, I am a 37 year wildlife rehabilitator. Wished I could keep a copy for myself. He thinks its a grade A book!

The book was a gift for my daughter, who couldn't put it down Christmas day.
